Professional Summary

Detail-oriented Data Analyst with a strong foundation in procurement and supply chain operations, bringing 3+ years of hands-on experience in cost control, inventory management, vendor relations, and ERP systems. Proficient in the full data lifecycle, SQL-based data extraction and cleaning, statistical analysis, and interactive dashboard development using Power BI and Excel. Proven track record in identifying critical business trends, optimizing operational efficiency through data-driven recommendations, and communicating technical findings to non-technical stakeholders. Experienced in Agile/Scrum methodologies, project management tools, and cross-functional collaboration. Seeking to leverage a unique blend of analytical expertise and real-world operational experience to drive strategic decision-making.

Technical and Analytical Skills

- **Procurement & Supply Chain:** Vendor Management, Supplier Relations, Purchase Order Processing, Inventory Management, Logistics Coordination, Cost Control, Budget Tracking, Price Analysis, ERP Systems, Supply Chain Optimization, Stock Reconciliation, Quality Control.
- **Data Analysis & Business Intelligence:** SQL (PostgreSQL, MySQL, MS SQL Server) - data extraction, cleaning, complex queries, window functions | Power BI - dashboard development, DAX calculations, interactive visualizations, KPI reporting | Excel - advanced formulas (XLOOKUP, VLOOKUP, INDEX-MATCH), pivot tables, power query, financial modeling | Python (Pandas, NumPy) - data manipulation and analysis.
- **Project Management & Collaboration:** Agile/Scrum Methodologies, JIRA (sprint planning, task tracking), ClickUp (project coordination), Process Improvement, Cross-functional Collaboration, Analytical Thinking, Problem-Solving, Data Storytelling, Stakeholder Management

Professional Experience

Procurement & Stores Officer | Control Clerk
Marble Arch Hotel — August 2019 - July 2022

- Managed end-to-end procurement operations including vendor sourcing, relationship management, purchase order processing, supplier performance evaluation, and contract negotiation to secure favorable terms while conducting regular market surveys and price comparison analysis to optimize costs
- Utilized hotel management ERP platform system for stock tracking, receiving, issuing, and logistics coordination across multiple departments, conducting daily and monthly stock reconciliation, cycle counts, and physical inventory audits while maintaining 99%+ accuracy in stock records.
- Prepared and analyzed weekly and monthly performance reports for bar, restaurant, and stores operations, identifying trends in cost variance and revenue performance while controlling daily store issues and transfers across departments using ERP systems, conducting cost analysis and budget tracking to support management decision-making on pricing strategies and operational improvements

Key Achievements:

- Optimized procurement processes resulting in improved vendor relationships and cost efficiencies
- Maintained inventory accuracy above 99% through systematic reconciliation and quality control procedures
- Delivered actionable insights through performance reporting that informed management decisions on pricing and operations.

Front-end Software Developer
FASI — May - August 2024

- Debugged and optimized data flow between front-end interfaces and back-end APIs, improving application performance and reducing data loading times.
- Collaborated in Agile cross-functional team, participating in daily stand-ups, sprint planning, and code reviews using JIRA for project management, planning, task tracking, and team collaboration.

- Consumed and integrated RESTful APIs to display real-time data, strengthening understanding of database structures and full data lifecycle.

Warehouse Clerk
Iprocure Limited September - December 2022

- Managed and validated inventory data across 500+ SKUs using ERP warehouse management system, maintaining 99% accuracy through systematic data quality checks and exception reporting.
- Led receiving and dispatch operations, coordinating team activities to meet 100% of operational KPIs for efficiency and timeliness.
- Generated weekly inventory reports using Excel, tracking stock levels, identifying slow-moving items, and resolving data quality issues to support procurement planning and supply chain operations.

Projects

Bank Loan Analysis & Performance Dashboard | Personal Project

Tools: SQL Server, Power BI, DAX, Data Modeling
GitHub: https://github.com/MwangiTess/Bank-Loan-Analysis

- Built end-to-end lending analytics solution: Using MS SQL Server relational database and interactive Power BI dashboard tracking loan performance, risk analysis, and financial KPIs using advanced DAX calculations and dynamic visualizations.

Retail Sales Analysis | Personal Project
Tools: PostgreSQL, SQL, Data Analysis, Business Intelligence
GitHub: https://github.com/MwangiTess/Retail-Sales-Analysis-SQL-Project

- Analyzed 2,000+ transactions using PostgreSQL, identifying 162% seasonal surge and delivering strategic recommendations for inventory planning, staffing optimization, and customer segmentation through advanced SQL queries and business intelligence.

Maji Ndogo Water Infrastructure & Budget Analysis | Personal Project

Tools: Power BI, DAX, Data Modeling, Power Query
GitHub: https://github.com/MwangiTess/maji-ndogo-water-analytics

- Developed Power BI dashboard analyzing $147M multi-province program with interactive navigation, delivering insights on spending efficiency and resource allocation for strategic decision-making.

Education

Mount Kenya University
Bachelor of Economics and Finance
Relevant Coursework: Econometrics, Statistics, Financial Modeling, Quantitative Analysis

Certifications

- ALX Certification in Data Analytics
- ALX Certification in Python for Data Analysis
- Moringa School Certification in Software Engineering
- ALX Professional Foundations Certification

Volunteer & Community Engagement

Community Service Director | Rotaract Club, Mount Kenya University

- Planned and coordinated monthly community service projects, directly engaging with and serving local communities.
- Led fundraising initiatives to secure resources for project execution, developing skills in project management and stakeholder engagement.

Club Service Director | Rotaract Club, Mount Kenya University

- Mobilized students to join the club and ensured active member participation, fostering a collaborative and inclusive environment.
